Confidence Level (1-10)	Has Confidence Changed Since University?	Public Speaking Experience (Memorable)
9		a presentation where i didnt practice and stutter
7		
5		
8		When i was in first trimester, and i had to give an impromptu speech Infront of the whole class
8		
8		I often need to speak and there are lot of presentations or speech i have delivered infront of people so telling one experience is tough.
6		My first presentation in University.
7		My first presentation of English course.
6		My first university presentation was so scary my hands were shaking like an earthquake, but somehow I survived.
6		For the first time I gave presentation.

10		Giving my first presentation in a formal stage at a conference room with a mic. Memorable cause it was a first time experience of such environment.
8		In my first presentation speech
1		
3		I was traveling in sreemangol, While I met a foreigner who also came to travel our country,then I made some good conversation with him that how he came here and how did he passed times in our country etc, that was a good experience
7		
10		In my first presentation
5		
8		
5		
8		
4		In 1st semester it was a drama presentation

6		at presentation
6		
10		If I were to speak of such an experience, one memory does come to mind. It happens to be from my early freshman days. I was extremely reserved and had this significant fear of large social settings or simply put, strangers. This occurred during the COVID-19
7		
1		Anchoring?
3		
10		First impromptu presentation at uni.
7		I still remember the day of my inter-college debate competition.
4		Yes
8		On my first presentation
9		Presentations

5		
3		
9		It was maybe a national price giving ceremony
1		
6		One time I gave a presentation in front of my class and felt very nervous at the beginning. But as I continued speaking, I became confident, and it helped me overcome my fear of public speaking.
6		Presentation
4		Presentation
1		In front of my professor my hand was shaking. That is one of my memorable experiences.
5 No		First time in varsity - gave presentation, got nervous, didn't complete
2 Yes		Panic, stopped
5 Yes		An in-class presentation

8	No	Was a student at Mentors in 2024. Spoke with friends and mates.
6	Yes	During presentation
7	Yes	During English 2nd course, had a presentation. A bit nervous, managed to do well.
8	No	Giving presentation in university and in front of students while teaching
1	Yes	I feel very nervous
7	Yes	English speaking test, class speeches, presentations
7	Yes	During Fresher's orientation
7	No	Presentation
5	Yes	English class
7	Yes	During English speaking test
7	Yes	Solo presentation on unfamiliar topic – had to improvise; feared grammatical errors and being judged

	6 No	Presentation in varsity
	6 Yes	First university presentation – felt awkward and embarrassed but kept going since marks matter
	5 No	Presentations
	7 Yes	During presentation
	5 Yes	During presentation
	5 Yes	Presentation

What Made the Experience Feel That Way / What Made You Nervous	Did Experience Discourage / More or Less Inclined After?	App / AI Tool Used for English Practice
Poor vocabulary, Pronunciation problem, Fear of judgment	Yes	duolingo, hello talk
Fear of mistakes, Poor vocabulary, Pronunciation problem, Fear of judgment	No	No
Poor vocabulary	No	
Fear of mistakes, Fear of judgment	No	Yes, gemini
Poor vocabulary	No	no
some times get nervous for not giving attention fully while presenting.	No	No
	No	
Fear of judgment	No	Chatgpt
Fear of mistakes	No	
Fear of mistakes, Pronunciation problem, Fear of judgment	No	Not learning but for reading classic fiction I have used chatgpt to understand the context better

Not nervous	No	
Fear of mistakes	No	No
Poor vocabulary	No	Chatgpt
Fear of mistakes, Poor vocabulary	Yes	
Fear of judgment	Yes	I often use Chatgpt
Not nervous	No	No
Fear of mistakes, Social anxiety/Stage fright	Yes	No.
Fear of mistakes, Fear of judgment	Yes	No
	Yes	
Not nervous	No	Chatgpt
Fear of mistakes, Poor vocabulary, Pronunciation problem, Fear of judgment	Yes	No

Fear of mistakes	No	Yes, I have used ChatGPT and some language learning apps.
Fear of mistakes	Yes	No
I am so introverted and socially apprehensive that speaking in front of unfamiliar people often causes me to stutter. It is not just for English, it happens when I am speaking Bengali too.	No	I used chatgpt for my university assignments to reduce the workload when it first came out. I haven't used it to learn English much aside from learning difficult, rarely used English
	Yes	
Fear of judgment	No	No
Fear of mistakes, Fear of judgment,	Yes	
Fear of mistakes, Pronunciation problem, Fear of judgment	No	Elsa, Duolingo
Fear of mistakes, Fear of judgment	No	Gemini, ChatGPT
Not nervous,	Yes	Hello app
Fear of mistakes	No	No
Pronunciation problem	No	Yes, free4talk

Not nervous	No	Yes
Fear of mistakes, Poor vocabulary, Fear of judgment	No	yes
Im nervous of so many people,whatever language it is,i might not speak up properly	No	No,from childhood,i find joy in books
Fear of mistakes, Poor vocabulary, Pronunciation problem, Fear of judgment	No	No
Fear of mistakes	No	Yes, I have used ChatGPT and Duolingo to practice speaking and improve my English skills.
Fear of mistakes, Poor vocabulary, Fear of judgment	No	Duolingo
Fear of judgment	No	
FFF means Fear of Fucking Friends	Yes	Yes

How Long Used the App/AI	What Did You Like About the App/AI	Problems / Difficulties Faced Using App/AI
3 month	Easy and fun to use, Actually improved my skill, Made connection with other learners	Lack of Human interaction/ too artificial, Limited cultural similarity
1/2 hours	Easy and fun to use, I liked practicing in private	No problems to use
I did not use any app.		
Almost once a week.	Easy and fun to use, I liked practicing in private	No problems to use
	I did not like at all	No problems to use
I use chatgpt all the time but for reading that fiction I used for 3 months	Easy and fun to use, Actually improved my skill, I liked practicing in private	No problems to use

Didn't use		
1month	Actually improved my skill, I liked practicing in private	No problems to use
6 months	I liked practicing in private, Gave useful feedback	Lack of Human interaction/ too artificial
No		
Too much	Actually improved my skill	No problems to use
	0 I did not like at all	Hard to navigate between features, Lost interest to learn, Lack of Human interaction/ too artificial

I have been using them for a few months	I liked practicing in private	Lack of Human interaction/ too artificial
Didn't use	I did not like at all	Limited cultural similarity
On hours end when chatgpt was first released. The curiosity was just too overwhelming to just be	Easy and fun to use	No problems to use
.	I wanted to maintain streak	Lost interest to learn
2 years.	Easy and fun to use, Actually improved my skill, Made connection with other learners, I liked practicing in private, I wanted to maintain streak, Gave useful feedback, I did not like at all	Hard to navigate between features, Lost interest to learn, Limited cultural similarity
I used it for 10–15 minutes a day.	Easy and fun to use, Actually improved my skill, I liked practicing in private	Lost interest to learn, Lack of Human interaction/ too artificial
1-2 hours daily	Actually improved my skill, I liked practicing in private	No problems to use
6-7 months	Easy and fun to use, Actually improved my skill, Made connection with other learners	No problems to use

Duolingo	Easy and fun to use, Actually improved my skill, Made connection with other learners, I liked practicing in private, I wanted to maintain streak, Gave useful feedback	Lost interest to learn, Lack of Human interaction/ too artificial, Limited cultural similarity
	I liked practicing in private	Lost interest to learn
I have been using these apps for a few months regularly to practice and improve my English.	I liked practicing in private	Lack of Human interaction/ too artificial, Limited cultural similarity
1 year	Easy and fun to use, Actually improved my skill, Made connection with other learners, I liked practicing in private, I wanted to maintain streak	Limited cultural similarity, No problems to use
....	I did not like at all	Limited cultural similarity
10 H	Easy and fun to use, Actually improved my skill, Made connection with other learners, I liked practicing in private, I wanted to maintain streak, Gave useful feedback, I did not like at all	No problems to use
3-4 months	too much complicated	The notifications
few weeks	complicated	interface
4-5 days	complicated	The software

2 years	Yes	IELTS simulation
1 year	Gemini, Deepseek	Not at all
a year	Yes – can search/customize and transcribe videos	Had experience using ChatGPT
	no	No
A year	no	no
4 year	The design was pretty solid	Never felt like it was hard or confusing
few weeks	The reminder setting & beginner friendly features	no
few weeks	ChatGPT	Confusing
Many times	Not that much	No
months	Not that much, but it was useful	I didn't feel that
days		

a year	4 modules	
a week	Duolingo's notifications felt annoying	When I can't understand easily how to use that
months	Like instant feedback and ability to learn anytime	Sometimes, feedback seems too general
week	Easy to use and helpful	Nothing
4 months	There are lots of free practice questions	I think average, not that much hard
months	no	no

AI vs Real Person Preference	AI Feedback Felt Like (Type)	Feedback That Motivates You to Return / Practice More

Ai	No	Fluency

AI	No	Detailed report of analyses about my performance
AI	No	It gives more convenient answers
Person	Not really	Feedback showing where I can improve and where I'm already good
AI	Yes, received feedback from a person	correction
AI		It makes me feel confident and I can speak with other people
AI	Basically tools give feedback the way you prompt them	The comfort it gives – works on my free will
AI	No (I didn't)	Positive and encouraging ones
AI	Too technical	positive
AI	No	positive
AI	No	Something cheerful
Person	Nope	Positive response in terms of judging errors

Person	No	High marks, good numbers
Person	Yes, from a person	When someone gives honest feedback, I feel like I need to improve so I practice more
AI	Too harsh from persons; too technical from tools	Clear and encouraging feedback
person	Yes, from IELTS mentor/instructor	Appreciation
AI	No	For more learning purpose
AI	No	Fluency matters to me – if I do good I want to practice more

AI vs Classroom Feel	Felt Shy / Judged / Embarrassed While Speaking to AI?	Does AI Feel Natural or Artificial?
	Sometimes nervous or embarrassed	Mostly natural with slight awkwardness
	Completely comfortable	Mostly natural with slight awkwardness
	Completely comfortable	Very natural, like a real conversation
	Completely comfortable	Very natural, like a real conversation
	Completely comfortable	Mostly natural with slight awkwardness
	Completely comfortable	Neutral
	Completely comfortable	Neutral
	Sometimes nervous or embarrassed	Neutral
	Completely comfortable	Somewhat artificial

	Completely comfortable	Neutral
	Slightly shy but comfortable	Somewhat artificial
	Completely comfortable	Somewhat artificial
	Slightly shy but comfortable	Neutral
	Completely comfortable	Neutral
	Slightly shy but comfortable	Mostly natural with slight awkwardness
	Slightly shy but comfortable	Somewhat artificial
	Slightly shy but comfortable	Very natural, like a real conversation

	Slightly shy but comfortable	Mostly natural with slight awkwardness
	Very anxious while speaking	Neutral
	Completely comfortable	Very natural, like a real conversation
	Slightly shy but comfortable	Mostly natural with slight awkwardness
	Completely comfortable	Very natural, like a real conversation
	Completely comfortable	Mostly natural with slight awkwardness
	Slightly shy but comfortable	Somewhat artificial
	Completely comfortable	Very natural, like a real conversation
	Completely comfortable	Neutral
	Completely comfortable	Very natural, like a real conversation

	Sometimes nervous or embarrassed	Neutral
	Completely comfortable	Mostly natural with slight awkwardness
	Completely comfortable	Somewhat artificial
	Slightly shy but comfortable	Mostly natural with slight awkwardness
	Often feel judged or self-conscious	Somewhat artificial
	Completely comfortable	Very natural, like a real conversation
More relaxed	No	Sometime artificial
Easy and relaxed	No	Natural
Awkward	Judged	Not even close (artificial)

Feels nothing – challenging like a game	Never	Natural
Relaxed	No	Bit different experience in different apps
It's okay	Not really	Mostly natural
More relaxed situation while talking with AI	Yes, few times	No – talking with AI now feels much more natural compared to a human
Relaxed	Yes	It still feels a bit AI (artificial)
Honestly, I feel more relaxed	No, never felt like that	Yeah, it sure feels natural
More relaxed	Never	Natural to me
More awkward	Embarrassed	Artificial
It more relaxed	No	It still feels a bit artificial
It is more relaxed	Never	It feels natural to me
More relaxed	Nope	It is artificial, yet relaxing

Can say anything – more free	Little	Good, feels natural
More easy	No, it's not real	Artificial
AI feels more relaxed; in classroom I feel more pressure	No cause AI won't judge me	Helpful but kinda artificial too
Awkward	No	
	No	I think it feels a bit artificial
More relaxed	Nope	Natural

Change One Thing About AI Speaking Tools	Bangladeshi Students' English Speaking Quality
Friendlier and more encouraging feedback, Interesting/ Enjoyable to use, More real-life scenario practice (daily conversations) / actual daily practice	Just ok
More natural, human-like conversation, Interesting/ Enjoyable to use / More human like conversation when asking a question or reevaluate the answer	Just ok
Interesting/ Enjoyable to use / I'd make them better at understanding emotional boundaries. Right now, AI speaking tools can sound very confident even when they're wrong or when a topic is sensitive.	Good
More natural, human-like conversation / Simpler and easier to use design	Just ok
More natural, human-like conversation / It responses like professionals, it would be for fun if it responds like human conversation	It varies widely among students
More natural, human-like conversation	It varies widely among students
More natural, human-like conversation, More culturally familiar accents and expressions, More real-life scenario practice (daily conversations), Options to interact with other learners / Make it easier and also give so motivation so that I can practice more. Also a	Just ok
Simpler and easier-to-use design / ..	Good
Friendlier and more encouraging feedback, More natural, human-like conversation, Simpler and easier-to-use design, Interesting/ Enjoyable to use, More culturally familiar accents and expressions, More real-life scenario practice (daily conversations) / I would	It varies widely among students

More natural, human-like conversation, More real-life scenario practice (daily conversations), Options to interact with other learners / Make them sound more natural and human like	It varies widely among students
More natural, human-like conversation / Not a high level feedback for a beginner like pronunciation and accent	Just ok
More natural, human-like conversation, Interesting/ Enjoyable to use, More culturally familiar accents and expressions / implement immediate, explicit, and constant transparency about their artificial nature	Very weak
Nothing	Just ok
Friendlier and more encouraging feedback, More natural, human-like conversation, More culturally familiar accents and expressions, More real-life scenario practice (daily conversations) / Make AI clearly express uncertainty instead of sounding overly	Good
Nothing	Just ok
More culturally familiar accents and expressions, More real-life scenario practice (daily conversations) / Give honest feedback	Just ok
More natural, human-like conversation, Simpler and easier-to-use design, Interesting/ Enjoyable to use / Make it more accessible and easier	It varies widely among students
Easier UI, history/past practice sessions information	It varies widely among students
Friendlier and more encouraging feedback / Correcting answers before giving it	Good
Friendlier and more encouraging feedback / Reply like a human..	Just ok

More natural, human-like conversation / I would make it more human-like and improve the clarity of feedback.	It varies widely among students
More real-life scenario practice (daily conversations) / Nothing	Weak
Options to interact with other learners / I think I am comfortable with how things are. I have not used AI much to learn English, so I do not think I quite fit the criteria required for this question.	It varies widely among students
Friendlier and more encouraging feedback, More natural, human-like conversation, Simpler and easier-to-use design, Interesting/ Enjoyable to use, More culturally familiar accents and expressions / More real life experience	
Friendlier and more encouraging feedback / .	Just ok
Rather than just reacting to prompts, a more comfortable AI would have a better sense of proactive boundaries. It would recognize when a user is spiraling into a repetitive loop of anxiety or over-exertion and gently suggest a break, or offer a grounding exercise,	Weak
Friendlier and more encouraging feedback, More natural, human-like conversation, Simpler and easier-to-use design, Options to interact with other learners / Adding an option like relevant contextual phrases for regional approach.	Just ok
More natural, human-like conversation, More real-life scenario practice (daily conversations), Options to interact with other learners / Options to interact with other learners	Weak
Friendlier and more encouraging feedback, Simpler and easier-to-use design / Nothing	Very weak
More natural, human-like conversation / I would not use it	It varies widely among students
Friendlier and more encouraging feedback / Idk	Just ok

More natural, human-like conversation, Simpler and easier-to-use design, Interesting/ Enjoyable to use, More culturally familiar accents and expressions / Don't know	Weak
Simpler and easier-to-use design, More culturally familiar accents and expressions, More real-life scenario practice (daily conversations), Options to interact with other learners / More culturally familiar accents and expressions	Weak
I dont need them eventually	It varies widely among students
	It varies widely among students
More natural, human-like conversation / I would make AI speaking tools more supportive and less judgmental, so they feel like a friendly conversation partner rather than a test. Also, adding more natural, human-like responses	Weak
Friendlier and more encouraging feedback, More natural, human-like conversation, Simpler and easier-to-use design, More real-life scenario practice (daily conversations) / Stop where i do mistakes and fix it right then	Weak
More natural, human-like conversation / ...	Good
Friendlier and more encouraging feedback, More natural, human-like conversation / Maintain the anonymity	Very weak

What Do You Think the Main Problem Is?
practice
Judgements
Lack of practice
Lack of practices in academic
the main problem is bangladeshi students rarely speak infront of too many people they should have practice of speaking english and giving speech infront of people from their kindergarden age.
People are too judgemental, not so friendly they mock eachother.
We dont get to practice more and more and in school and college the language is often treated as a subject not a language, so we are so focused on learning the grammar that we often forget it is a language and we focus and stutter

Bangla medium education system
Lacking of practicing. Not uses as a language, treated just like a subject
Does not practice
Consistency
Practice
Students don't have enough speaking experience rather they are encouraged to learn how to write proper English. This creates a gap between writing and speaking skill.
Confidence and eagerness to learn properly
Not used to it
Exercise

Lack of practice

I would not be able to just pinpoint one cause. There's probably too many reasons to state. Many of those numerous contributing factors would be -inadequate educational foundations, comprehensive understanding of grammar and

Their source of learning often is the wrong one

They don't learn it as a language.

A major problem is the lack of regular practice. Students rarely get chances to speak in front of others, so they feel nervous.

Education system

Nervousness

Lack of practicing environment

The system! education system and their poor judgment
Lack of practice
They also feel shy or afraid of making mistakes, which stops them from speaking confidently.
Lack of practice
.....
Poor Educational Infrastructure specially in Bangla Medium
